Step 3: The account in SendGrid is successfully created

The screenshot shows a web browser window with the URL `app.sendgrid.com/guide?from=profile&integrate=true`. The page displays a welcome message for 'Rishi babu A S' and a sidebar with navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area is titled 'Welcome, Rishi!' and includes a blue banner that says 'Send your first emails with Twilio SendGrid'. Below this, the 'Create a sender identity' section is visible, explaining that a sender identity is needed before sending emails and offering two ways to create one: 'Create a Single Sender' (highlighted with a blue button) and 'Authenticate a domain instead'. An illustration of two people running is shown on the right. At the bottom, a message states 'Please create a sender identity before sending your first email.'
